FISCH OUT OF WATER

The goal of Fisch out of Water is to encourage speakers of foreign and second languages to use their own voices in non-native ways, in the company of their peers.

Our second event of this semester will be devoted to the scary and the macabre. It will be an opportunity to bridge the gap between Halloween and the Day of the Dead by sharing scary stories, poems, etc. We invite speakers of various foreign languages to spook us with their favorite scary story, poem, etc. while enjoying yummy cake and ice tea.
